***Terminal Disclaimer***

1. The terminal disclaimers filed on 2/15/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,660,390 or 6,723,433 has been reviewed and is accepted. The terminal disclaimers have been recorded.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The first paragraph of p. 1 of the specification has been amended to:

This application is a continuation-in-part of U.S. patent application no. 10/076,662 filed Feb. 15, 2003, now U.S. 6,660,390, which is a continuation-in-part of U.S. patent application no. 09/899,686 filed Jul. 5, 2001, now U.S. 6,723,433, that claims priority from U.S. provisional application no. 60/272,912 filed Mar. 2, 2001.

***Allowable Subject Matter***

3. Claims 1-31 are allowed.
4. The following is an examiner's statement of reasons for allowance:
5. The closest prior art, Golumbic (US 6,001,906), discloses a blend of hard and soft polymers but does not include a crosslinking agent or an indication that crosslinking

such a compound would not destroy the blend's beneficial properties. It is the examiner's position that the applicant's crosslinked blend coated on a flexible film or retroreflective sheeting substrate provides a novel and unobvious step over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
